

OFFICE OF THE
KUKI INPI DELHI & NCR
(Apex body of the Kuki Tribes)

Ref. No. KID/PR/2025

Date: 12.09.2025

PRESS RELEASE

The Kuki Inpi on 8th September, 2025 meeting with different units of the country once again voiced out, in one accord, the immediate political settlement for the Kuki-Zo people. The Kuki Inpi Delhi (KID) as a federating unit deeply endorsed the statement and will work unequivocally until the Kuki-Zo people obtain their rightful demand for Separate Administration of Union Territory with legislature or a separate State.

For the last two years, since 3rd May 2023 to be specific, the whole world observes how a minority Kuki-Zo people were uprooted and implicated with wrong metanarratives. Every social media channel to clarify these wrong narratives were bombarded with spams and trolls. Every curious citizen was guided with wrong information and every journalist who published authentic stories were either threatened or cyberbullied. The approach of the majority community is clear, “confuse the nation first and annihilate the minorities” taking advantage of the backward region. Anyone who speak for the Kuki-Zo are threatened with FIRs and legal summons. A community who could not afford a single media outlet (English/Hindi newspaper) stood against the bullets of mighty and powerful media houses. These are the tip of an iceberg ordeal for the past two years.

In hindsight, guns were issued, distributed from Police Stations and other Security outlets to kill and shoot Kuki-Zo people. Women were raped, paraded naked and tortured. Chopping head and hanging it on a fence, mutilating victims, burning and defacing women after rape – gives them satisfaction. From police stations to new rooms, wrong information were manufactured for 2 years now. Solidarity activists were intimidated and their properties vandalized. This horror carried out by majority community upon the Kuki-Zo minority will haunt the nations for generations to come. The “just war theory” on Kuki-Zo people are against the ethics of Human Rights and Indian Constitution. This is a legacy given to India – a nation known for its non-violent values and principles. A sacrilege to Gandhi and his teachings.

How long are the arms of Justice? Justice delayed will undermine public trust on Indian Judiciary. The audio tape of Biren Singh is almost politicized now. Thousands of gun and ammunition looted are still missing. The trust we had on the majority community will not comeback in near future. We are geographically and emotionally separated now. Furthermore, we declare that there will be no free movement of Meiteis in Kuki-Zo areas, and the Kuki-Zo community will also refrain from returning to Meitei areas until our political demand is fulfilled. The geographical boundary created should be respected by both the parties. This buffer zones are the lines drawn with human lives.

In all honesty, let us not forget, Kuki-Zo people are the only community in Manipur, who stood with Indian Government all through this long 78 years of independence, when every community took up arms against the Government to vent out their physical and mental desperations. We raised our arms for *Jai Hind!!* since Netaji Subhas Chandra Bose's INA days. There are many INA pensioners still alive today. Many communities who could not tolerate our transparent and long relationship with India are up against with many other wrong narratives for example – Kuki-Zo as refugees in their own land. By this theory India also should be under Greece because Alexander invaded her in 327 BC. Moreover, scientific research shows that Manipur valley was inhabitable till 13th century because of large water mass? Who are the real refugees here? What is the authenticity of claiming 2000 years of civilization and branding other communities as “refugees”. The hard truth will prevail one day.

For this and above important reasons, we have solemnly taken a resolution, that Separate Administration (SA) is our only survival on this earth. This SA can be in the form of Union Territory with a legislature or a separate Indian State. Manipur conflict has opened the eyes of every right thinking citizen. And let us not forget the world is watching us. The urgency in solving the Kuki-Zo community demand will reverberate the trust on Indian democracy.

Jai Hind, Jai India !!
